¹ Qualified plans include profit sharing, money purchase, defined benefit, ESOP, target benefit.

² Available only after the individual has been a SIMPLE plan participant for over two years.

³ No recharacterizations of conversions made in 2018 or after.

⁴ Only a plan merger could be done as a transfer. All other movement would need to be done as a rollover.

Portability Definitions

Transfer: Movement of assets from one account to another in which both accounts are considered to be like plans. This type of transaction does not generate any tax reporting to the IRS and is therefore nontaxable. If the assets are changing custodians, the receiving custodian will need to sign a letter of acceptance accepting custodial responsibility of the account.

Rollover: Movement of assets from one account to another. This type of transaction generates a 1099-R on the delivering side and a 5498 on the receiving side for IRAs. The event may be nontaxable if it is done properly and within 60 days.

Conversion: Movement of assets from an eligible qualified plan or IRA to a Roth IRA. This type of transaction generates a 1099-R on the delivering side and a 5498 on the receiving side. This is generally a taxable event.

Recharacterization: Movement of assets from one account into another account to undo a previous transaction. This transaction is most common from a Roth IRA to an eligible IRA to undo a Roth conversion. Transaction will generate a 1099-R on the delivering side and a 5498 on the receiving side.
